

Seminars 14 - 15 September 2019

Sputnik Hotel [Address](#): Prospekt Toreza, 36, Sankt-Peterburg, Russian Federation, 19402

Saturday 1409: "Childhood dyspraxias and related motor disorders."

10:00–12:00

- 1 General introduction into the neural basics of action and speech and their relationship.
- 2 Classification of motor disorders (short overview).

Break 12:00–12:20

12:20–14:00

- 3 Assessment of posture and gait: significant diagnostic criteria and age peculiarities.
- 4 Ideational and ideomotor dyspraxia: Definition and diagnostic criteria for assessment; differentiating the dyspraxia subtypes of and related coordination disorders.

Lunch 14:00–15:00

15:00–17:00

- 4 Dyspraxias continued
- 5 Graphomotor dyspraxias: (A) archaic truncal movements and deteriorated handwriting and (B) Age peculiarities and main diagnostic criteria of dysgraphias.

Sunday 1509: "Developmental language disorders (DLD) and speech disorders"

10:00–12:00

- 6 Tan's metamorphosis concept of speech-language development and brain development
- 7 Current classification of DLD. Aspects of assessment.

Break 12:00–12:20

12:20–14:00

- 8 Developmental dysphasia: Variants, aetiology and description.
- 9 Verbal or speech dyspraxia: main diagnostic criteria and differential diagnosis.

Lunch 14:00–15:00

15:00–17:00

- 10 Acoustic verbal perception and gnosis: Neural mechanisms – Differential diagnosis – Symptomatology of verbal agnosia and clinical framework.
- 11 Auditory verbal agnosia ('word deafness') and developmental dysphasia.
